

Getting Grounded

Priority	Challenges Remaining
<p>Improve oral health literacy across Texas</p>	<ul style="list-style-type: none"> • Need culturally appropriate materials • Problem finding education materials in Spanish on websites • *Central repository for all things oral health, www.openwide.com (open domain as of now) • How to reach general public <ul style="list-style-type: none"> • Make them care • How to make it more visible and accessible • Broader focus for other residents–geriatric, medical, veterans, MttMR groups needed • Delays with getting info out; increase social media presence • What is the frequency of review of website and readability statistics • Is there enough personnel/advocates to go out and educate/achieve goals • Connect with high school, get health in curriculum • Get into nursing curriculum • Behavior change research • Information needs to disseminate to health professionals • Need to educate public and non–dental professionals • DSHS OHP needs to be more interesting and modern • Educate legislature and leadership • Weren't aware of online training for oral health literacy <ul style="list-style-type: none"> • Need one page handouts to give parents and families
