

Regional Oral Health Coalitions

Reporting Out Guidelines

The last 45” of each quarterly meeting will be for someone from each regional oral health coalition (ROHC) to report out about their regional meeting in the main room. Please keep your reports to 5-10 minutes so everyone has plenty of time to report out.

Which ROHC are you reporting for

1. **Introduce new members as appropriate** – (if you have three from the same org. just say 3 members from our local xyz team.)
2. **New oral health programs or organizational dental services offered in your region**
3. **New resources for your region**
4. **Regional events, current or proposed activities in your region – Are volunteers needed?**
5. **Other announcement or pertinent information.**
